Hop aboard the galleon rocker with your friends

There's room for lots of children on the multi-seesaws, where everyone needs to pull together to get things moving. Playing on the seesaw strengthens motor skills, balance and coordination and, not least, social ties between the children. The youngest children can sit securely at each end of the seesaw, while older children can use the large non-slip platform as they wish.

The handles on the multi-seesaw have a natural rubber finish for a safe and comfortable grip. At the same time, stop blocks in the patented spring mechanism ensure that the multi-seesaw cannot hit the ground.

Why choose LEDON Explore?

- Low-maintenance play equipment in natural colours.
- In particular, it challenges and stimulates children's social skills, motor skills and balance.
- The play systems come in a wide range of sizes and price classes to suit every need.
- A theme world that arouses children's natural interest in experiencing and exploring the world.
- The largest theme world with many different items of play equipment for the entire playground.

Specifications

Article number

642090G: In-ground mounting

Recommended ages

From 3 years

Product dimensions (LxWxH)

312 x 115 x 100 cm

Area requirement incl. safety distances (LxW)

512 x 315 cm

Max. fall height

100 cm

Approximate installation time

2 persons 7 hours

Other details

This product is inclusive

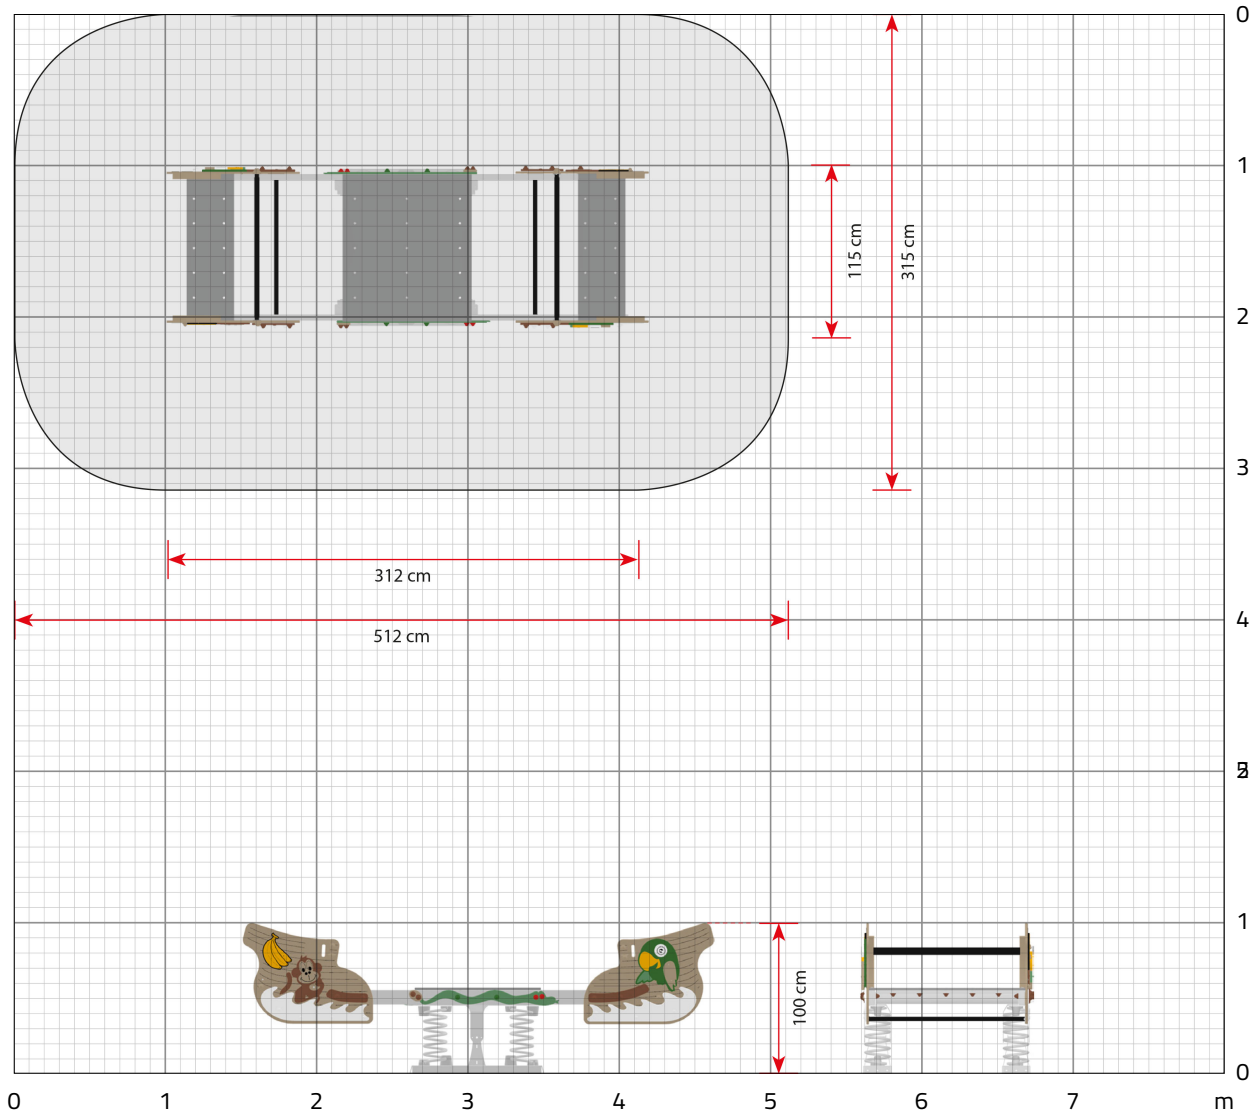

This product can be installed directly on grass without additional fall protection
