Swing frame for explorers

Our Explore series has a selection of swing frames to suit every need. All the Explore models feature painted frames and a decorative gable element that matches the Explore series' themed universe and which stimulates role-play and imagination.

Even though swinging is an activity that children can enjoy on their own, you often see children swinging in the company of others. Swinging together supports the children's social skills, as they can compete to see who can swing the highest; also, they have to take it in turns if there are lots of children wanting to use the swings. This will require the children to negotiate, be sympathetic and express their feelings to ensure that everyone has an enjoyable time.

The tyre swing for children large and small

The tyre swing is one of our most popular swing seats. The well-known favourite is suitable for a wide age group ranging from 2 years and up to 15-16 years. At the same time, it has several uses, as two small children can sit on it together, while older children can swing on it standing up. The tyre swing seat is coated with environmentally friendly rubber paint that does not rub off in the summer heat.

Why choose LEDON Explore?

- Low-maintenance play equipment in natural colours.
- In particular, it challenges and stimulates children's social skills, motor skills and balance.
- The play systems come in a wide range of sizes and price classes to suit every need.
- A theme world that arouses children's natural interest in experiencing and exploring

Specifications

- Article number**
