Classic swing frame

We have a selection of classic swing frames if all you want is a simple frame without any paintwork or decorative gable elements. The swing frames come in all sizes and with a choice of seats to suit every need.

Bird's nest for relaxation and socialising

The bird's nest, or sensory swing, is a sure hit with children large and small. The swing allows even the smallest children to have a ride, as younger children can lie or sit in the swing, and with an adult if necessary. The swing is also good for stimulating young children's sense of balance, concentration and learning skills.

Older children enjoy the bird's nest because it gives them a chance to relax and have fun with their friends. In other words, there is more to the swing than just swinging, as it is also a place where children can gather, which holds considerable value for them.

Specifications

Article number

1175: In-ground mounting

Recommended ages

From 1 year

Product dimensions (LxWxH)

334 x 227 x 224 cm

Area requirement incl. safety distances (LxW)

334 x 687 cm

Max. fall height

134 cm

Approximate installation time

2 persons 3 hours
