Swing frame for explorers

Our Explore series has a selection of swing frames to suit every need. All the Explore models feature painted frames and a decorative gable element that matches the Explore series' themed universe and which stimulates role-play and imagination.

Bird's nest for relaxation and socialising

The bird's nest, or sensory swing, is a sure hit with children large and small. The swing allows even the smallest children to have a ride, as younger children can lie or sit in the swing, and with an adult if necessary. The swing is also good for stimulating young children's sense of balance, concentration and learning skills.

Older children enjoy the bird's nest because it gives them a chance to relax and have fun with their friends. In other words, there is more to the swing than just swinging, as it is also a place where children can gather, which holds considerable value for them.

Why choose LEDON Explore?

- Low-maintenance play equipment in natural colours.
- In particular, it challenges and stimulates children's social skills, motor skills and balance.
- The play systems come in a wide range of sizes and price classes to suit every need.
- A theme world that arouses children's natural interest in experiencing and exploring the world.
- The largest theme world with many different items of play equipment for the entire playground.

Specifications

Article number
1175EXA: In-ground mounting

Recommended ages
From 1 year

Product dimensions (LxWxH)
334 x 227 x 243 cm

Area requirement incl. safety distances (LxW)
334 x 687 cm

Max. fall height
134 cm

Approximate installation time
2 persons 3 hours
