Classic swing frame

We have a selection of classic swing frames if all you want is a simple frame without any paintwork or decorative gable elements. The swing frames come in all sizes and with a choice of seats to suit every need.

For very young children who need help from a parent or older sibling to have a go on the swing, the activity strengthens the emotional bonds between the two. On the other hand, children's self-confidence will be boosted by being able to climb up onto the seat and start swinging by themselves. Being able to entertain yourself and being independent of adults and friends also means a lot for a child's sense of independence.

The frame is extra high, so that it can also be used by older children and adults wanting to have a swing. The swing frame is also supplied without a seat, which gives you the freedom to buy one of our four different seats.

Specifications

Article number

1179: In-ground mounting

Product dimensions (LxWxH)

236 x 261 x 260 cm

Approximate installation time

2 persons 3 hours
