Classic swing frame

We have a selection of classic swing frames if all you want is a simple frame without any paintwork or decorative gable elements. The swing frames come in all sizes and with a choice of seats to suit every need.

One of the benefits of swinging is that it helps children to better regulate sensory inputs and impacts. When swinging back and forth, they practise adapting to different sensory impressions from the outside world. This can help improve concentration, as it trains the children's ability to ignore unwanted inputs, such as classroom noise.

The frame is extra high, so that it can also be used by older children and adults wanting to have a swing.

The tyre swing for children large and small

The tyre swing is one of our most popular swing seats. The well-known favourite is suitable for a wide age group ranging from 2 years and up to 15-16 years. At the same time, it has several uses, as two small children can sit on it together, while older children can swing on it standing up. The tyre swing seat is coated with environmentally friendly rubber paint that does not rub off in the summer heat.

Specifications

Article number

1181: In-ground mounting

Recommended ages

From 3 years

Product dimensions (LxWxH)

236 x 261 x 260 cm

Area requirement incl. safety distances (LxW)

236 x 769 cm

Max. fall height

147 cm

Approximate installation time

2 persons 3 hours
