-  **Fully certified**

Spinners for the playground

Orbit is our largest spinner – and the large surface allows several children to have a ride together. Because it is relatively low, children can either sit down on it or lie on their tummies and turn round.

Spinning supports children's development. It improves their sense of balance and motor skills, as they have to hold onto the spinner while increasing the speed at which they are spinning. Their spatial intelligence is also put to the test when spinning round and round. Children with a high level of spatial intelligence are better at assessing distance and speed as well as forming an overview. These are key abilities when navigating traffic.

Orbit is available in either red or green, so you can choose the colour that best suits your playground. See the model in green.

Specifications

Article number
650095: In-ground mounting

Recommended ages
From 5 years

Product dimensions (LxWxH)
130 x 130 x 45 cm

Area requirement incl. safety distances (LxW)
730 x 730 cm

Max. fall height
45 cm

Approximate installation time
2 persons 3 hours
